What is Gateway?
Gateway is UCSB’s eProcurement Purchasing System based on SciQuest technology. eProcurement enables users to create and submit requisitions online. It also routes requisitions to the appropriate person for approval, and finally transmits the purchase order to the vendor.

Who will be users?
Everyone! Faculty, staff and students will be able to use Gateway.

What can you buy?
Goods and services of all kinds.

Why SciQuest?
For more than a decade, SciQuest has focused on helping research-centered academic organizations to streamline their procurement and supplier management processes.
