

## Web Browser Set-up Guide for new BARC

The new BARC system is web-based and is designed to work best with Netscape 4.79. Use the chart below to determine the appropriate set-up for your web browser to use new BARC.

<i>What type of computer do you use?</i>	<i>What you will need to do in order to use the new BARC system...</i>
I am a Thin Client user.	You do not need to do anything.  The version of Netscape available to Thin Client users (version 4.75) will work with the new BARC system.
I use a PC and the following statement about the Netscape web browser applies to my workstation....	
I don't have Netscape.	Proceed to <a href="#">Section 2</a> of this document for instructions on how you can download and install Netscape 4.79.
I <b>only</b> have Netscape 6.x or Netscape 7.x.	Proceed to <a href="#">Section 2</a> of this document for instructions on how you can download and install Netscape 4.79.
I <b>currently</b> have Netscape 4.79.	You do not need to do anything.  The new BARC system was designed to work best with the version of Netscape you have.
I <b>currently</b> have Netscape 4.75 or Netscape 4.76.	You do not need to do anything.  Even though the new BARC system is designed to work best in Netscape 4.79, the application will work fine with Netscape 4.75 and Netscape 4.76.
I have a version of Netscape 4, but it is <b>not</b> Netscape 4.75, Netscape 4.76 or Netscape 4.79 <b>and</b> I have an alternative web browser (such as Microsoft Internet Explorer, Netscape 6.x or Netscape 7.x) on my workstation.	Proceed to <a href="#">Section 1</a> of this document to uninstall the current version of Netscape you have <b>and</b> then continue on to <a href="#">Section 2</a> to download and install Netscape 4.79.
I have a version of Netscape 4, but it is <b>not</b> Netscape 4.75, Netscape 4.76 or Netscape 4.79 <b>and</b> I <b>do not</b> have any other web browsers (such as Microsoft Internet Explorer, Netscape 6.x or Netscape 7.x) on my workstation.	Proceed to <b>Steps 1 - 7</b> of <a href="#">Section 2</a> of this document to <i>download</i> Netscape 4.79 <b>and</b> then follow the instructions in <a href="#">Section 1</a> to uninstall the current version of Netscape you have <b>and</b> then proceed back to <b>Steps 8 - 18</b> of <a href="#">Section 2</a> to <i>install</i> Netscape 4.79.

## Section 1: Uninstall Current Version of Netscape

This section provides instructions on how to uninstall your current version of Netscape 4.x.

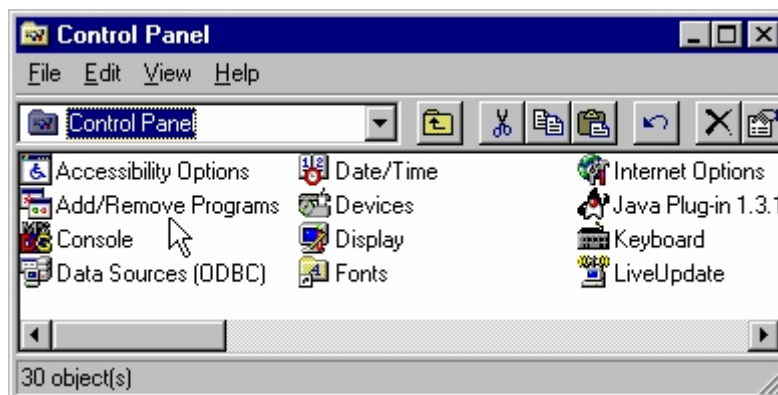

If you have a version of Netscape 4.x on your computer, but it is not Netscape 4.75, Netscape 4.76 or Netscape 4.79, we highly recommend that you uninstall the version of Netscape 4.x that you have *before* installing Netscape 4.79. Having multiple versions of Netscape 4.x can be problematic with using the new BARC system.

**IMPORTANT:** Please check with your workstation support staff *before* uninstalling any software from your workstation. They will be able to provide you with instructions and assistance specific to your workstation environment.

1. From the **Start** button in the taskbar, navigate to **Settings**→**Control Panel**

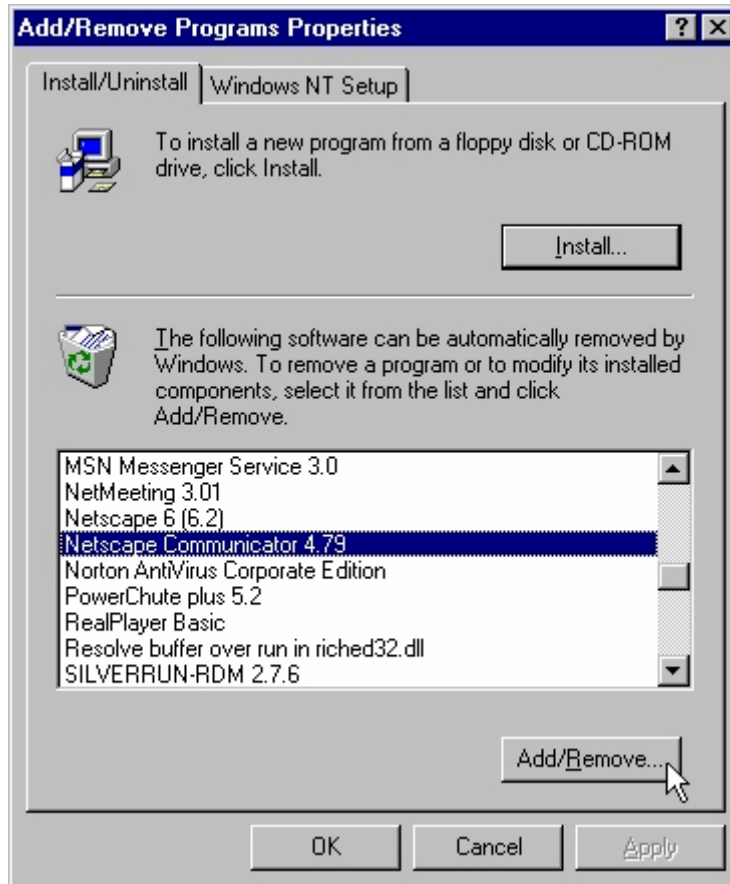

2. At the *Control Panel* window, double click on the **Add/Remove Programs**.

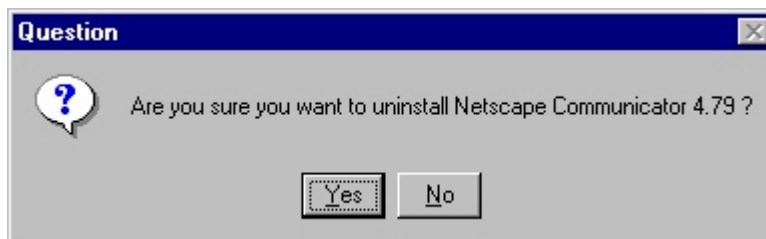

## Web Browser Set-up Guide for new BARC

3. At the *Add/Remove Programs Properties* dialog box, scroll through list of software at the bottom and select the appropriate Netscape application to uninstall. Click on the **Add/Remove** button.

**NOTE:** The screenshot below is *only* an example of the *Add/Remove Programs Properties* dialog box. If you have Netscape 4.79, you do not need to remove it.

4. When the *Question* dialog box is displayed, click on the **Yes** button.

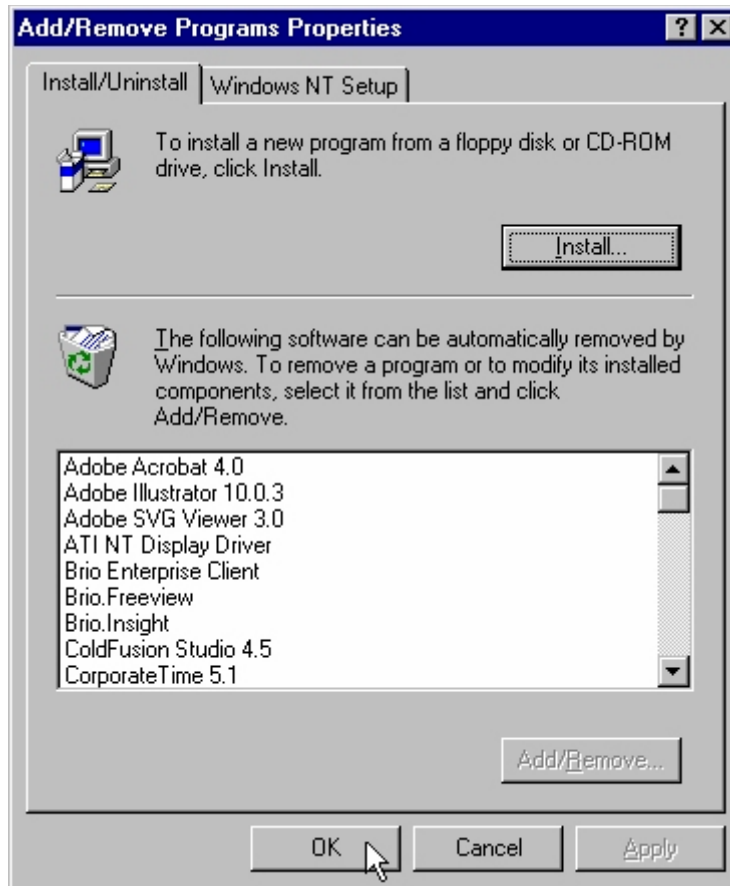

**NOTE:** The screenshot above is *only* an example of the *Question* dialog box. If you have Netscape 4.79, you do not need to remove it.

## Web Browser Set-up Guide for new BARC

5. The un-installation process will take several minutes.

When it is completed, the *Add/Remove Programs Properties* dialog box will be displayed. If you scroll through the list, the version of Netscape you selected to remove is no longer on the list.

Click on the **OK** button.

6. Restart your computer.

## Section 2: Download and Install Netscape 4.79

This section provides instructions on how you can download and install Netscape 4.79 on your computer from the *Netscape* website.

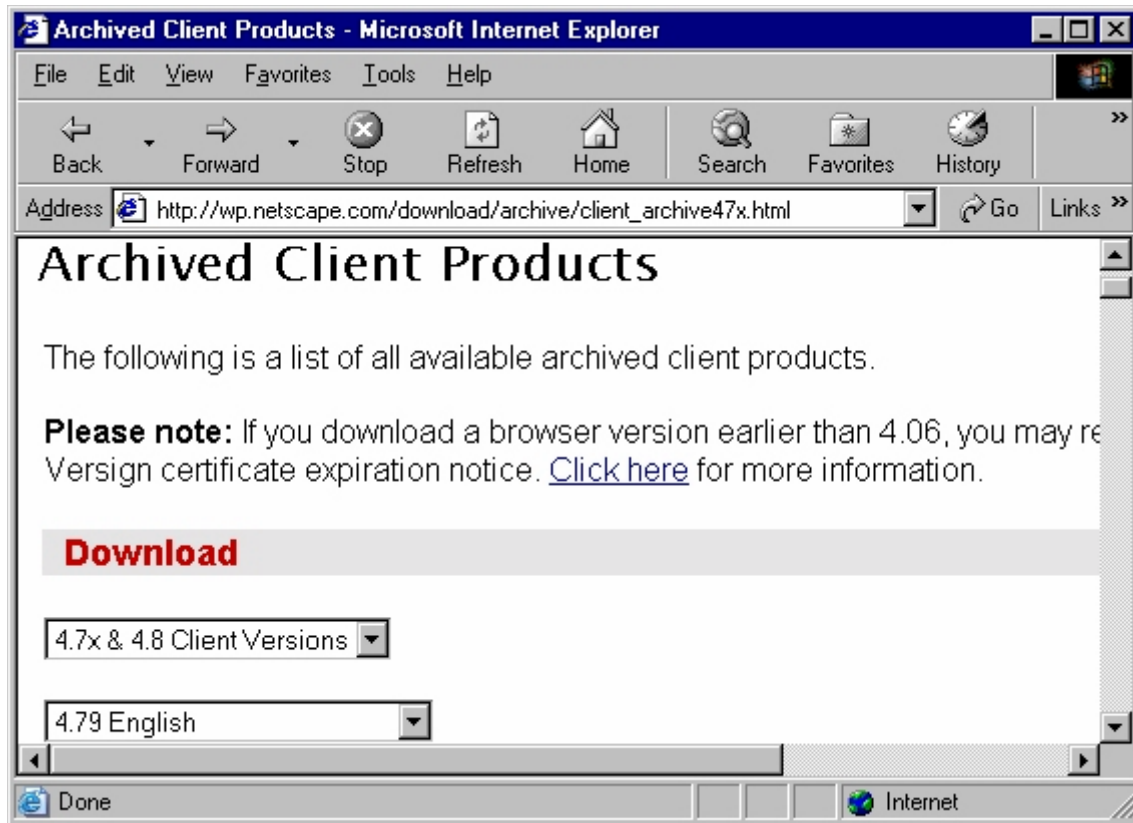

**IMPORTANT**: Please check with your workstation support staff *before* installing any software on your workstation. They will be able to provide you with instructions and assistance specific to your workstation environment.

1. Go to <http://wp.netscape.com/download/archive.html>
2. At the *Archive Products* screen, click on the **Versions 4.7x and 4.8** hyperlink.

## Web Browser Set-up Guide for new BARC

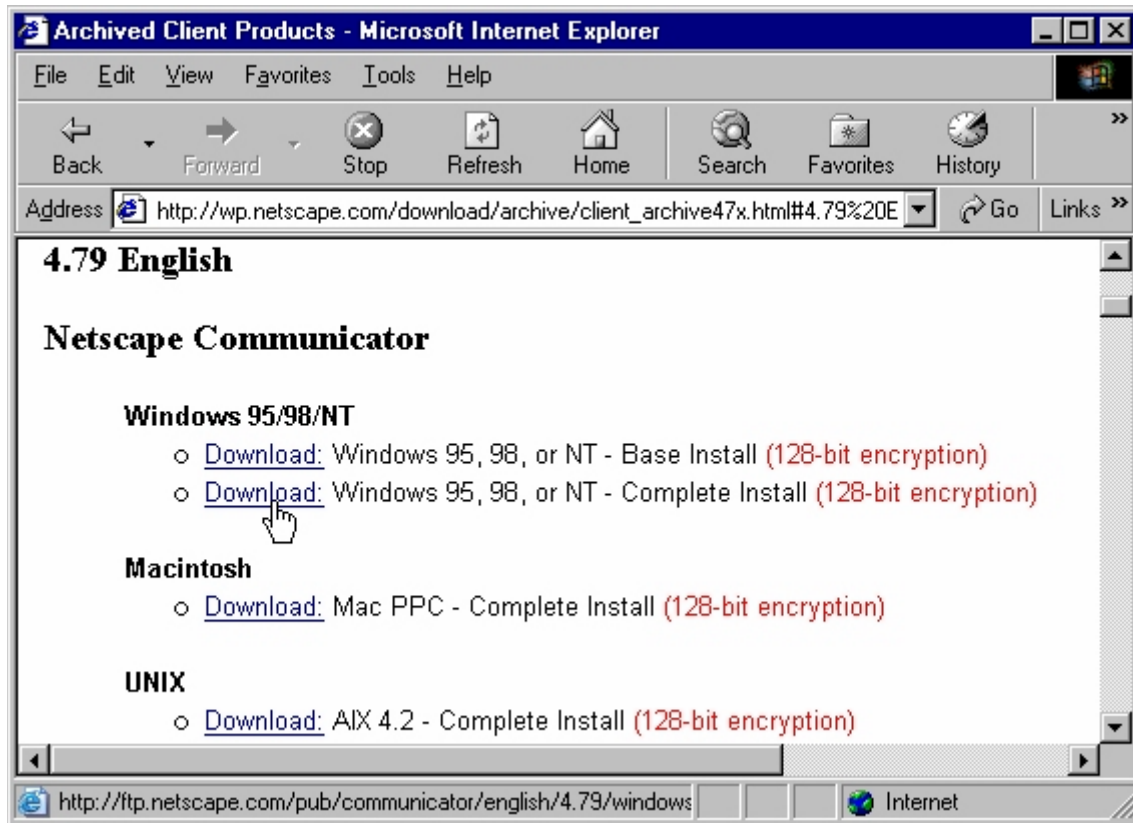

3. At *Archive Client Products* screen, choose **Versions 4.7x and 4.8 Client Versions** and **4.79 English** from the two pull-down menus under *Download*.

## Web Browser Set-up Guide for new BARC

4. Click on the **Download** hyperlink for *Windows 95, 98, or NT – Complete Install*.

**NOTE:** Even though Windows 2000 and Windows XP are not explicitly noted, this specific download file is compatible with both operating systems as well.

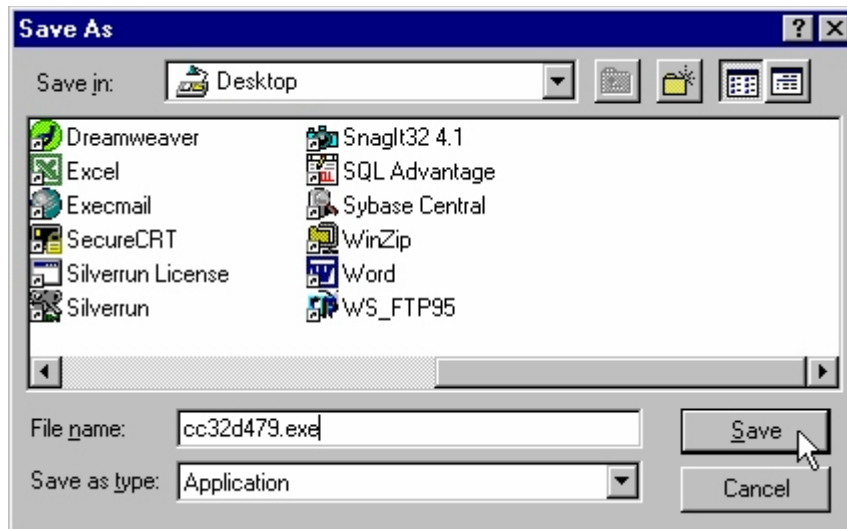

## Web Browser Set-up Guide for new BARC

- At the *File Download* dialog box, click on the **Save** button.

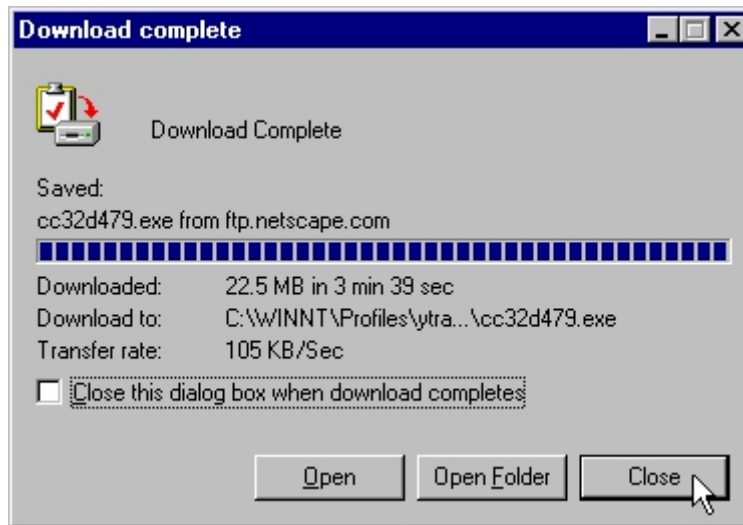

- Navigate to where you would like to save the file. We recommend you save the file on our desktop for ease of locating it. Otherwise, remember where you save the file so you can locate it.

## Web Browser Set-up Guide for new BARC

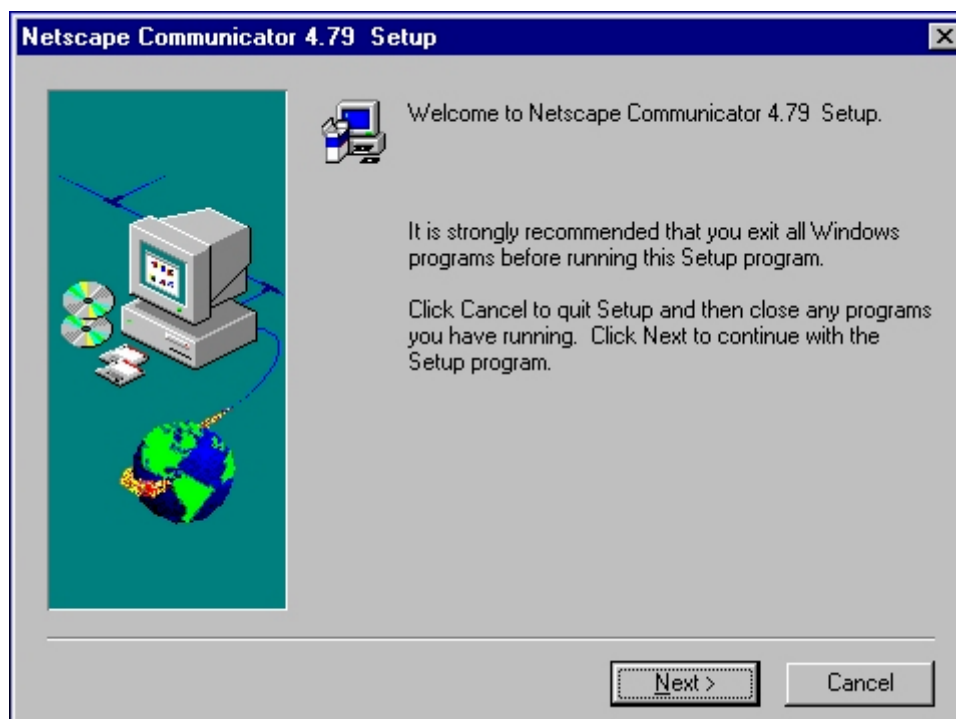

- When the download is completed, click on the **Close** button.

- Double click on the **Netscape installer** icon on your desktop (or wherever you save it) to begin the installation process. It is strongly recommended that you exit all Windows programs before beginning the installation.

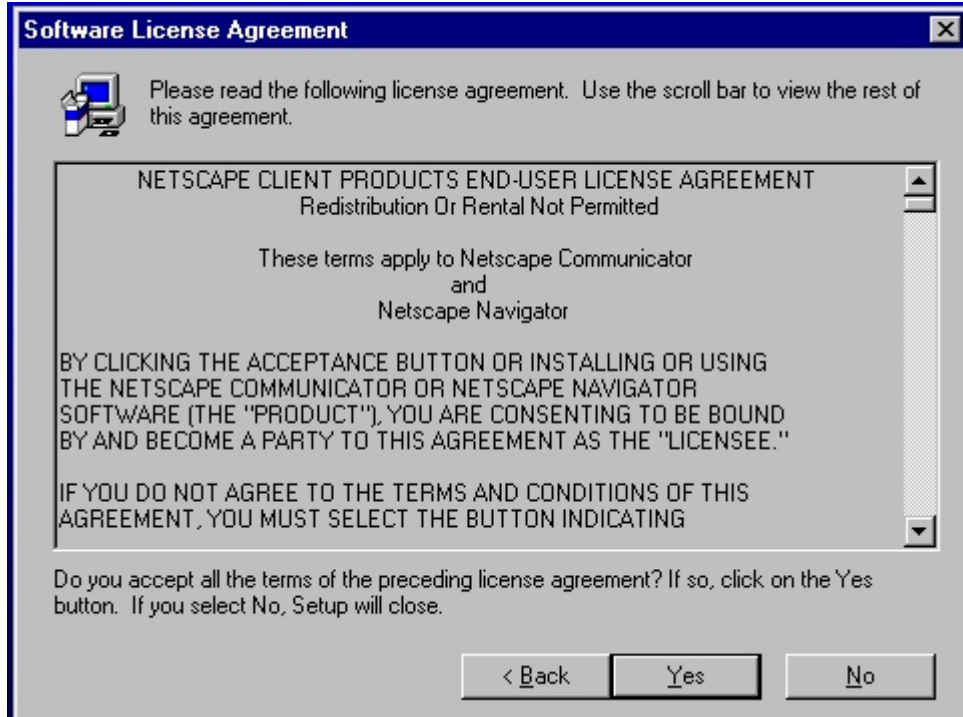

- At the *Netscape Communicator 4.7.9 Setup* dialog box, click on the **Next** button.

## Web Browser Set-up Guide for new BARC

10. Read the license agreement at the *Software License Agreement* dialog box and click on the **Yes** button to accept all the terms of the license agreement.

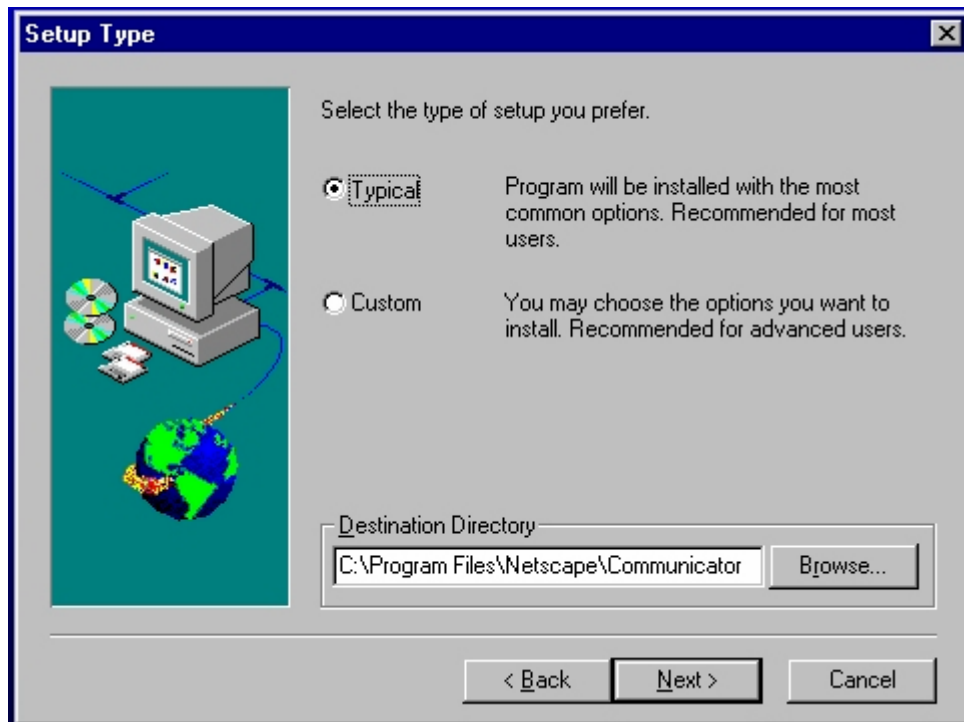

## Web Browser Set-up Guide for new BARC

11. At the *Setup Type* dialog box, we recommend you accept the default selections by clicking on the **Next** button.

**NOTE:** The defaults should be as follow:

1. Type of setup is **Typical** and
2. Destination directory is **C:\Programs Files\Netscape\Communicator**

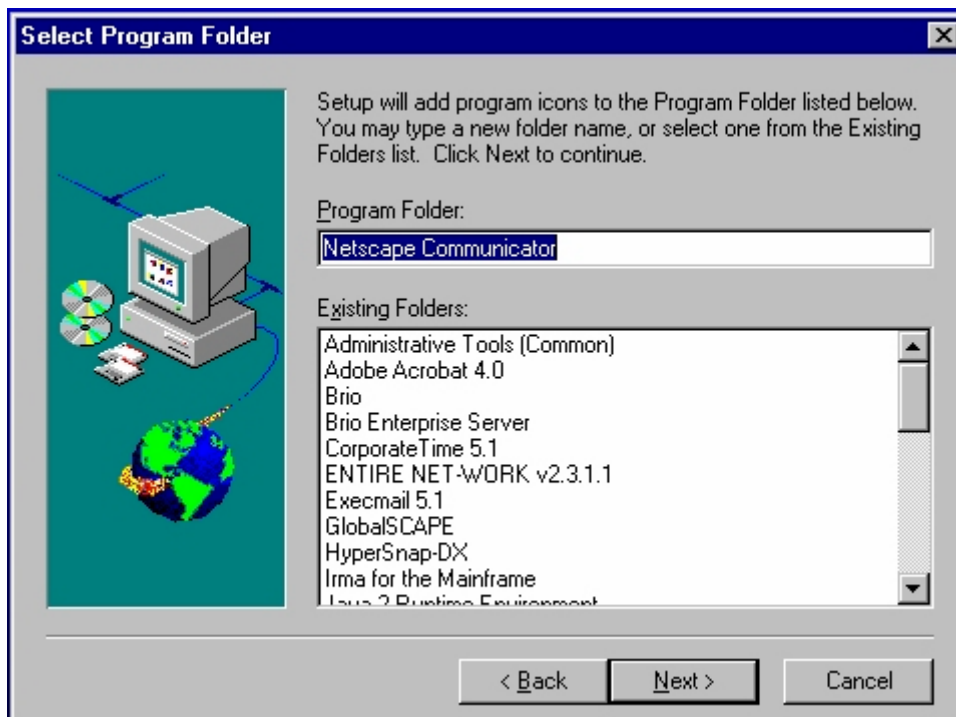

## Web Browser Set-up Guide for new BARC

12. At the *Netscape Desktop Preference Options* dialog box, choose the list of option(s) you would like to have and click on the **Next** button.

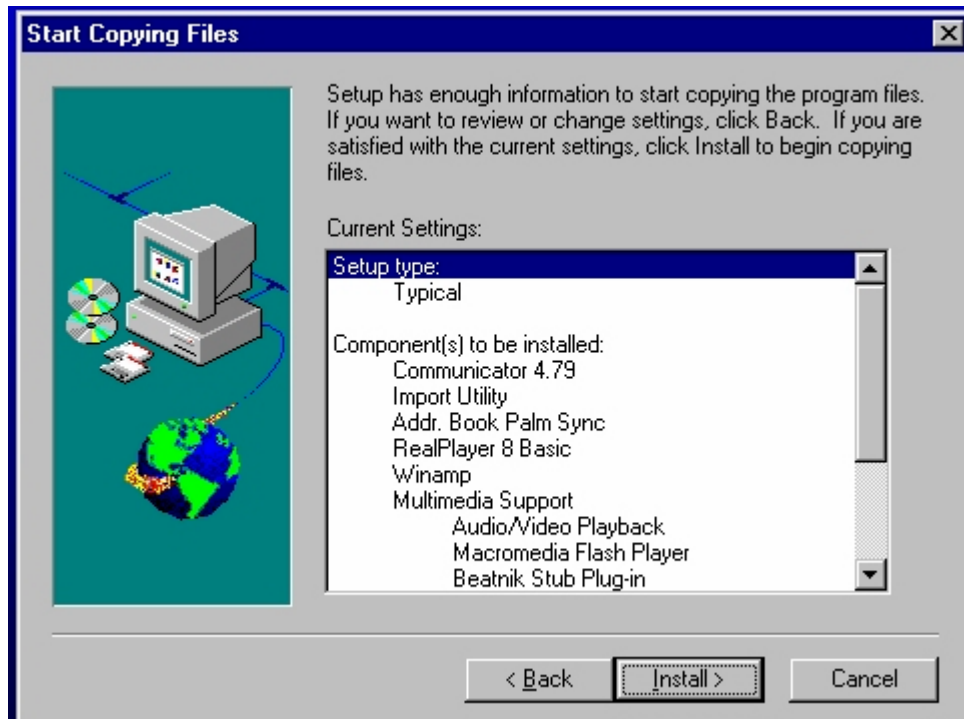

13. At the *Select Program Folder* dialog screen, accept the default (i.e. Program Folder is **Netscape Communicator**) and click on the **Next** button.

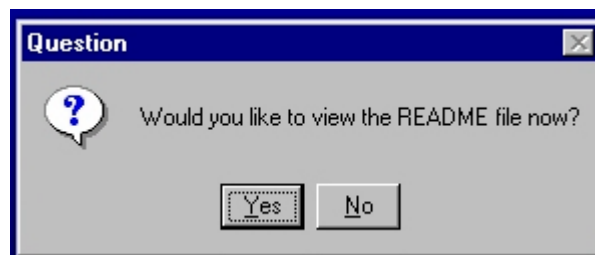

## Web Browser Set-up Guide for new BARC

14. At the *Start Copying Files* dialog box, click on the **Install** button.

15. At *Question* dialog box, you can choose to read or not to read the README file, which contains additional information about Netscape 4.7.9, by clicking on the **Yes** or **No** button respectively.

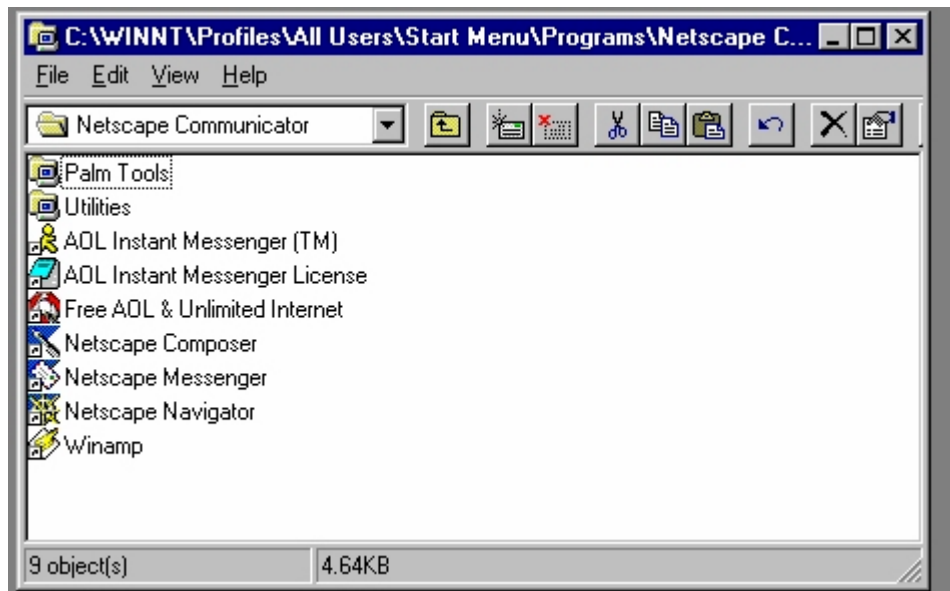

## Web Browser Set-up Guide for new BARC

16. When the installation is complete, the Information dialog will be displayed.

Click on the **OK** button.

17. A window similar to the one below will display the components that were installed during the installation process. You can close the window by clicking on the 'X' button on the upper right.

18. You might see shortcuts icons, such as *AOL*, *Outlook Express*, etc., display on your desktop. You can remove any or all of them as you please by dragging the appropriate item(s) to your **Recycle Bin**.
